

Texas Hospital Association Foundation

CLINICAL INITIATIVES AND QUALITY

Working to accelerate improvement in health care through collaboration and innovation

Who We Are

We have the unique opportunity to work closely with hospitals and health systems around Texas to help in advance quality care and patient safety.

With more than 120 years of combined experience working in and with hospitals, THA's clinical initiatives team is here to help hospitals advance high-quality, safe care.

What We Do

Texas hospitals have intensified their commitment to quality and patient safety by working together – leveraging their collective experiences and dedication – to move the needle on health care delivery.

Currently, we are focusing on the following projects:

Rural and Critical Access Hospital Quality Improvement Programs - supporting quality improvement through coaching and collaborative learning

Quality Improvement Fellowships - developing quality leadership skills in health care professionals across the state

Infection Prevention - providing education and development opportunities for caregivers

TexasAIM - Reducing maternal morbidity & mortality in Texas

Additional Programs

Patient Safety Organization - a secure environment for shared learning and preventing medical errors and harm events.

Peer Review Network - Full service program for the management of medical staff/allied health peer review.
